## Service Bulletin SB-273 Repair Procedure

### Condition for Repair

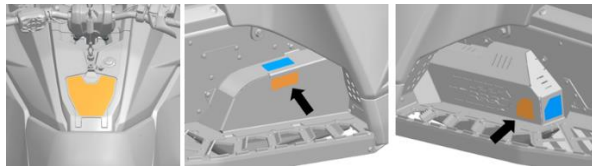

Determine if the vehicle currently has the English labels or the French labels already applied.

### Procedure

Clean the indicated areas from dirt and debris (Orange areas seen in the images below).

Wipe the area with IPA alcohol.

**NOTE:** It is not necessary to remove the existing Hatch labels prior to cleaning. The newly applied Hatch labels will adhere on top of the old labels.

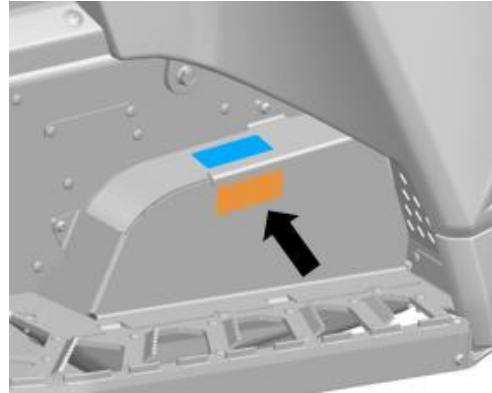

### If English labels are already applied

1. Apply the provided label P16169 "LABEL, HATCH" to the designated area:

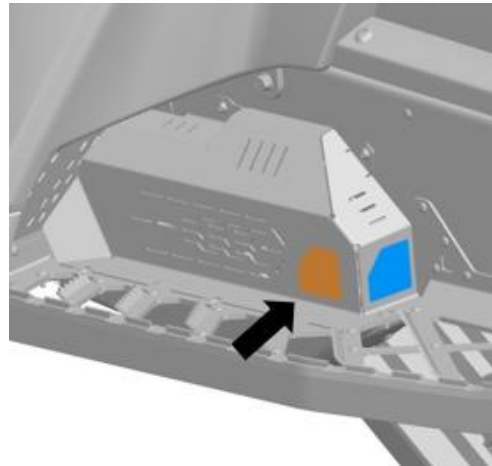

2. Apply the provided label P13195 "LABEL, PULLEY GUARD FR" to the

designated area (ORANGE). (Blue indicates the existing label location).

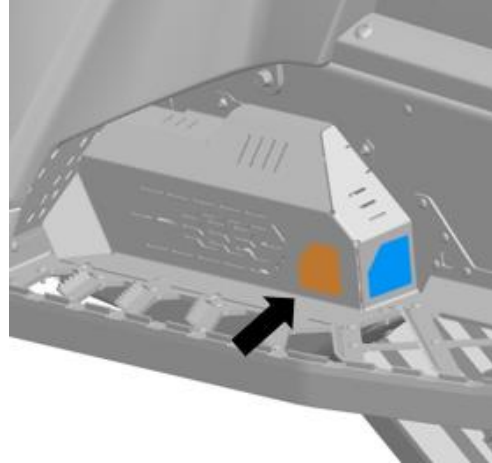

3. Apply the provided label P13198 "LABEL, ROTOR GUARD FR" to the designated area (ORANGE). (Blue indicates the existing label location).

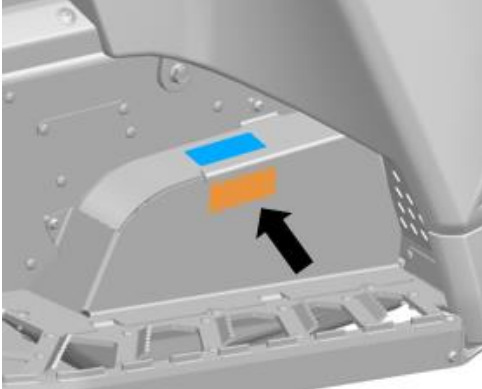

**If French labels are already applied**

1. Apply the provided label P16170 "LABEL, HATCH FR" to the designated area:

2. Apply the provided label P11526 "LABEL, PULLEY GUARD" to the designated area (ORANGE). (Blue indicates the existing label location).

3. Apply the provided label P11531 "LABEL, ROTOR GUARD " to the designated area (ORANGE). (Blue indicates the existing label location).
